■ Good (7.0–8.9)	■ Low (5.0–5.9)	■ Insufficient data	

*Detailed information on indicator definitions and values is available at <https://hivpreventioncoalition.unaids.org/global-dashboard-and-country-scorecards/>.

KEY ACHIEVEMENTS IN PAST 6 MONTHS

- A thorough assessment of prevention priority needs and barriers and a national consultation were conducted before the launch of the Global HIV Prevention Coalition.
- High-level leadership by the Minister of Health for the national prevention agenda has been secured, and the previously existing national multisectoral Prevention Reference Group reconstituted to function as the national prevention coalition.
- High-priority locations for HIV prevention among adolescent girls and young women have been defined.

NEXT STEPS IN 2018

- The national prevention target-setting process will be completed and subnational prevention targets generated.
- Existing HIV prevention capacity-building plans will be reviewed, and the National AIDS Council strengthened, through the recruitment (or secondment by an implementing partner) of dedicated Prevention and Monitoring and Evaluation staff.
- A National HIV prevention framework for accelerating HIV prevention will be developed, and the national condom strategy finalized.
