Sustainability in Action: Integrating VMMC into Primary Health Care

September 25, 2019
VMMC Sustainability Planning
Deborah Kaliel
Valerian Kiggunde
PEPFAR Sustainability Agenda

“To sustain epidemic control, it is critical that the full range of HIV prevention and treatment services are owned and operated by local institutions, governments, and organizations”

-COP19 Guidance for All PEPFAR Countries
Measuring VMMC Sustainability: Development of VMMC Regional SID

- Modeled on the PEPFAR Sustainability Index and Dashboard (SID) with same domains, elements, tool structure
- Adapted questions to be specific for VMMC and focused Domain B (National System and Service Delivery questions for 3 geographic regions of focus)
- Piloted tool in Tanzania in 2016 with 50 participants from civil society, private sector, NACP, regional representatives from Iringa, Njombe, and Tabora, UNICEF, PEPFAR
What is VMMC Sustainability?

A local system can maintain high male circumcision prevalence within a geographical area after the initial coverage target is reached

- Working Definition for VMMC Sustainability Meeting, 2016

Health facilities provide regular, high quality client centered VMMC services delivered by competent providers with adequate commodities and funding to sustain 80% circumcision coverage

- Tanzania VMMC Sustainability Roadmap, 2019
### Tanzania VMMC SID Results

#### Sustainability Analysis for Epidemic Control:

**Epidemic Type:** Low-income

**PEPFAR Categorization:** Long-term Strategy

**COP to Planning Level:**

#### Estimated 2016 Global Fund Financing:

**Strategic Information:**

- **Funding of VMMC:**
  - GNI Per Capita (PPP)

**CONTEXTUAL DATA:**

- Individuals received VMMC, 2014:
  - Results vs. Targets
  - Age distribution (2015, in millions)
  - Male population (2015, in millions)

---

### Tanzania

**Health System Financing and Economic Indicators:**

- GNI Per Capita (PPP)
  - Current International dollars
  - GDP (PPP) at constant 2010 prices
  - Current International dollars (2015-2016)

**Epidemiological Data:**

- Adult Prevalence
- Adult Incidence
- PLHIV
- AIDs-related Deaths
Based on data, VMMC SID results, government priorities, and other stakeholder input, the three regions each developed draft actions plans with activities, timeline, responsible entity, resources needed, and indicators/benchmarks.
