

**THURSDAY 7TH DECEMBER
2017, 10:45 – 12:45**

REACHING ADOLESCENT BOYS

**for HIV prevention, improved health and
transformative gender interventions through
VMMC**

Adolescent boys and young men are key to achieving HIV prevention including through voluntary medical male circumcision and other adolescent health and well-being services. Countries have been testing delivery approaches to inform a more sustained and integrated approach to serve adolescents boys. This satellite will share experiences and guidance on reaching adolescent boys with ASRH, VMMC and gender transformative interventions.
